**Reservations Overview Map**

**Reservations and Supplements**

Some European trains – such as high-speed and long distance trains – often require a seat reservation at an extra cost. The orange lines on this map provide an overview of the main routes on which trains operate that may require a compulsory reservation or supplement. Generally, trains without compulsory reservation also run on these routes.

**Tip:** The Rail Planner App gives you the possibility to filter “trains without compulsory reservations”. Please note that this option might increase the travel time and train changes for your journey. The App indicates that a reservation is compulsory with the following icons: **R** or **R**

**Please note that:**

- only a selection of main routes is shown on this map
- night trains are not included
- the information on this map can change without prior notice
- extra charges/supplements are applicable on board some Ferry Lines

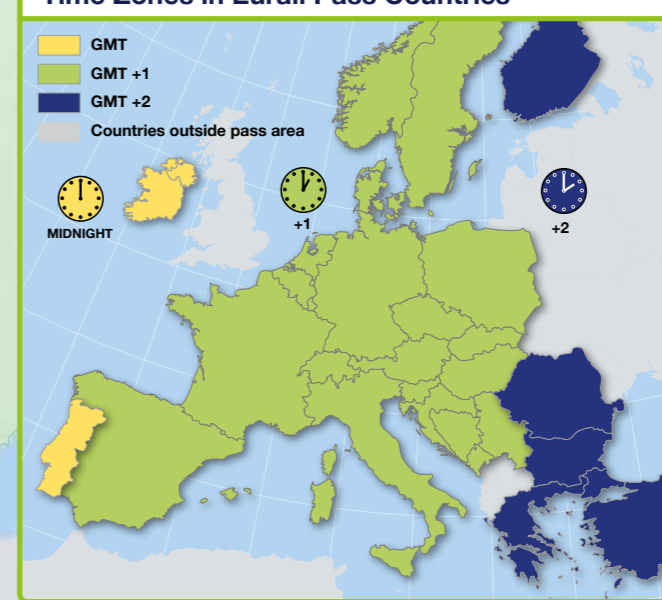

Please consult your sales agent or the European national railways for more information and/or to make reservations.
